The next period accrued will be the 31 December 2026 and paid in 2027.

8 - Administration fees and depositary fees

The Domiciliary Agent, the Depositary, and the UCI Administrator will be authorized to receive the following commissions deducted from the SICAV's assets: a maximum of 0.10% per annum of the average net assets of the relevant Sub-Fund, as agreed in writing between the parties as needed. In addition to this remuneration, the Domiciliary Agent, the Depositary Bank, and the UCI Administrator are authorized to receive other commissions and fees applied for the processing of specific operations or transactions.

9 - Double dip

Other notes to the financial statements

10 - Subscription tax ("*Taxe d'abonnement*")

By virtue of legislation in force and based on common practice, the SICAV is not subject to any Luxembourg income and capital gains tax. The SICAV, however, is subject to an annual tax in Luxembourg (*taxe d'abonnement*) of 0.05% of the net assets of each Sub-Fund, except for institutional share classes - "I" of each Sub-Fund which will benefit from a reduction in this tax to 0.01% of their net assets. This tax is not charged anymore, when already accrued at the target fund level. This tax is payable quarterly based on the SICAV's net assets calculated at the end of the quarter to which the tax is applicable.

11 - Swing pricing

The Board of Directors may adjust the Net Asset Value of any of the Sub-Funds or Classes of the SICAV through the application of a swing pricing mechanism as a percentage of the Net Asset Value per share to counter the impact in the event that a Sub-Fund may suffer dilution of the Net Asset Value per share due to investors buying or selling shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. The mechanism is aimed at reducing the impact of these costs on shareholders who are not dealing their shares at that time, and impact the shareholders who are dealing their shares by adjusting their Net Asset Value price by the swing factor.

If on any Valuation Day the aggregate transactions in Shares of a Sub-Fund result in a net increase or decrease of Shares which exceeds a threshold set by the Management Company in consultation with the Investment Manager and ratified by the Board of Directors from time to time for that Sub-Fund (partial swing), the Net Asset Value of the relevant Class within the Sub-Fund will be adjusted by an amount which reflects broker fees and other costs such as bid/offer spreads, trading costs, taxes, potential market impact of trading, etc. that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. The adjustment will be an addition when the net movement results in an increase of all Shares of the Company and a deduction when it results in a decrease.

Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per share. Under exceptional circumstances the Management Company may in consultation with the Investment Manager, in the interest of shareholders, decide to temporarily increase the maximum swing factor indicated and inform investors accordingly. Such decision will be ratified by the Board of Directors and Shareholders will be informed about any such increase of the adjustment limit and the swing factor actually applied in accordance with applicable laws and regulations.

As at June 30, 2026, the swing pricing mechanism was not applied in any of the Sub-Funds.

Global Risk Exposure

The SICAV will use a risk management procedure enabling it to monitor and measure, at any time, the risk of the positions and their contribution to the overall risk profile of each Sub-Fund. The SICAV shall also use a method for accurate and independent assessment of the value of OTC derivative instruments. Each Sub-Fund must ensure that the sum of commitments arising from derivatives instruments does not exceed the net value of the portfolio. Such commitments are calculated considering the current value of the underlying asset, counterparty credit risk, changes in the futures contract market and the time needed to settle positions. Pursuant to amended Law of December 17, 2010, as well as regulations and circulars in force, specifically CSSF circular 11/512, each Sub-Fund must use a risk management procedure that assesses market exposure, liquidity risks and counterparty risks, as well as any other type of risk, including operational risks, that prove to be material for the Sub-Fund.

Commitment approach

Regarding the risk management procedure, some Sub-Funds use the commitment approach to monitor and measure the total exposure. This approach measures the total exposure in relation to financial derivative instruments ("FDI") and other effective portfolio management techniques, if any, considering any effects of settlement and hedging, if any, which should not exceed the total net value of the Sub-Fund's portfolio. Based on the standard commitment approach, each FDI position is converted into the market value of the equivalent position in its underlying asset.

The following Sub-Funds use the commitment approach:

BASE INVESTMENTS SICAV - GLOBAL FIXED INCOME

BASE INVESTMENTS SICAV - LOW DURATION

BASE INVESTMENTS SICAV - MULTI ASSET CAPITAL APPRECIATION FUND OF FUNDS

BASE INVESTMENTS SICAV - SEMPIONE SMART EQUITY

BASE INVESTMENTS SICAV – PIR ADVANTAGE

Value-at-Risk (VaR) approach

Regarding the risk management procedure, some Sub-Funds' global exposure is monitored and measured using the absolute VaR approach. In financial mathematics and risk management, the VaR approach is a widely used method to calculate the risk of loss on financial assets of a specific investment portfolio. For a given investment portfolio, with a given probability level and time horizon, VaR is defined as the limit on which basis the potential loss of the investment portfolio's market value over the given time horizon exceeds such limit (under normal market conditions and with no transactions involving the investment portfolio) is equal to said probability level.

The VaR is calculated based on a single confidence level of 99%, as well as a 20-days holding period. The Sub-Funds VaR may not exceed 20% of the Sub-Fund's net asset value as defined by the Law in force and in the prospectus.

The following Sub-Funds use the VaR approach:

Management Company

The Board of Directors has appointed Edmond de Rothschild Asset Management (Luxembourg) as the Management Company of the SICAV and its Sub-Funds.

The Management Company was incorporated as a limited company on July 25, 2002, and its articles of incorporation were amended for the last time on September 18, 2014 and published in the Mémorial on November 4, 2014. The Management Company is registered with the Registry of Trade and Companies of Luxembourg under number B 88 591. The Management Company is approved under Chapter 15 of the 2010 Law. The subscribed capital of the Management Company is EUR 18,238,022.99 and is fully paid up.

The Management Company Agreement has been entered into for an undetermined period of time and may be terminated by either party upon serving to the other a three months' prior written notice.

The Management Company has established and applies a remuneration policy and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, rules, this Prospectus or the Articles nor impair compliance with the Management Company's obligation to act in the best interest of the SICAV (the "Remuneration Policy").

The Remuneration Policy includes fixed and variable components of salaries and applies to those categories of staff, including senior management and risk takers whose professional activities have a material impact on the risk profiles of the Management Company, the SICAV or the Sub-Funds.

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Management Company, the SICAV and the shareholders and includes measures to avoid conflicts of interest.

In particular, the Remuneration Policy will ensure that:

- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the SICAV in order to ensure that the assessment process is based on the longer-term performance of the SICAV and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period; and
- the fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proposition of the total remuneration to allow the operation of a fully flexible to pay no variable remuneration component.

The fees charged to the SICAV by the Management Company shall amount to a maximum of 0.06% per annum of the average net assets of the relevant Sub-Fund with a minimum of EUR 20,000.00 per Sub-Fund and per year.

Remuneration of the Distributors and Nominees

In addition to any subscription fees that they may receive, Distributors and Nominees are paid periodic fees as remuneration ("Retrocessions") for their administrative assistance services provided to investors. Such fees shall not be paid by the SICAV but by the Investment Manager Banca del Sempione SA, which gives up part of the fees paid from the SICAV. Distributors and Nominees are remunerated with an average 50% of the management fees with some exceptions in any case not exceeding the maximum rates which are detailed in the prospectus. In addition, investors should be aware that the recipients of the Retrocessions must inform investors, unsolicited and free of charge, about the amount of the compensation they may receive for distribution, for example by giving the calculation parameters or compensation bands. On request, they must disclose the amounts they actually receive for the distribution of the collective investment schemes held by the investors concerned.

Remuneration of the Sub-Investment Manager

On a periodic basis, the Sub-Investment Manager is entitled to receive a fee, whose maximum rate is illustrated below. Such fee shall not be paid by the SICAV, but by the Investment Manager Banca del Sempione SA, which gives up part of the fees paid by the SICAV. Such fee is payable on a quarterly basis and is calculated on the average net asset value of each Sub-Fund during the relevant quarter.

SFDR (Sustainable Finance Disclosure Regulation)

The SICAV does not actively promote sustainability factors (i.e. environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters) (“Sustainability Factors”) and does not maximize portfolio alignment with Sustainability Factors; however, it remains exposed to

Sustainability Risks. “Sustainability Risk” means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investments made by the SICAV. Such Sustainability Risks are integrated into the investment decision making and risk monitoring to the extent that they represent a potential or actual material risks and/or opportunities to maximizing the long-term risk- adjusted returns. The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region, and asset class. In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

Each Sub-Fund has a highly diversified portfolio. Therefore, it is expected that the Sub-Funds will be exposed to a broad range of Sustainability Risks, which will differ from investment to investment. Some markets and sectors will have greater exposure to Sustainability Risks than others. For instance, some sectors or individual companies may be subject to greater regulatory or public pressure than other sectors and, thus, greater risk. However, it is not anticipated that any single Sustainability Risk will drive a material negative financial impact on the value of the Sub-Funds.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time (the “EU Regulation 2020/852”).
